MANAGE INVENTORY

- Dispense supplies using handheld scanners, touchscreen tablets, or a combination of both
- Manage a single central supply, multiple supply rooms and even multiple facilities

CONTROL COSTS

- Control costs by driving formulary through robust custom rules engine based on your facility needs
- Connect to your EHR system to update resident information automatically

TRACK & ANALYZE SPEND

- Track supplies by staff member, resident, product category, and more with powerful reporting features
- Capture charges for non-supply items, including therapy, rentals, oxygen, transportation and more
